

ASG series

**PENDULUM
SPREADERS**

AIP series

AIG series

PENDULUM SPREADERS

The **BMC pendulum spreaders** are designed for the distribution of solid granular fertilizers and seeds with total precision.

FEATURES

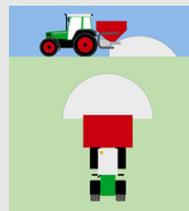

- ♦ 3 BASE MODELS : AIP500, AIG800 and ASG1100. All other models are made by adding bolt on extensions to the base hoppers.
- ♦ Hoppers are made of high grade pressed polyester. Critical parts are stainless steel, poly or high grade paint.
- ♦ AIG and ASG models come with quick hitch system.
- ♦ Accessories include: Hydraulic open/close, agitator extension, and lighting kit.

DISTRIBUTION SYSTEM

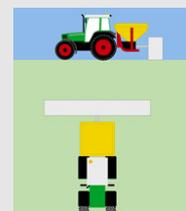

Pendulum spreaders deliver the most accurate overlapping spread pattern possible. An equal amount of material is spread on either side in a symmetrical pattern. The maximum spreading width is 14 mm. The overlapping pattern allows for more driving forgiveness, no skips or burns due to double coverage. Material is kept close to the machine and there is no overspray on the tractor.

Cone shape pattern provides total overlap

DISC TYPE SPREADER PATTERN: Material is subjected to wind influence. The flat pattern requires precise overlap.

PENDULUM SPREADER PATTERN: Wind influence is negligible. Tractor does not get covered with fertilizer.

	AIP series		AIG series			ASG series		
	AIP Serie is designed for small farmers and for tractors under 50 CV.		AIG Serie is designed for medium farmers and for tractors between 50-90 CV.			ASG Serie is designed for large capacities and tractors over 90 CV.		
MODELS	AIP 500	AIP 600	AIG 800	AIG 1000	AIG 1250	ASG 1100	ASG 1400	ASG 1650
